

Define CS, fit into CC	<div><div>1. CUSTOMER SEGMENT(S)<div>CS</div></div><div>Who is your customer? i.e. working parents of 0-5 y.o. kids</div><div>Surgeons, Doctors and Patients</div></div>	<div><div>6. CUSTOMER CONSTRAINTS<div>CC</div></div><div>What constraints prevent your customers from taking action or limit their choices of solutions? i.e. spending power, budget, no cash, network connection, available devices.</div><div>Multiple hands detected within same frames Connectivity issues between devices Inconsistency in focus and concentration of surgeon Availability of devices</div></div>	<div><div>5. AVAILABLE SOLUTIONS<div>AS</div></div><div>Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? i.e. pen and paper is an alternative to digital notetaking</div><div>Wearable devices can be used to detect hand gestures Voice commands can be used to manipulate radiology images Manually manipulating radiology images</div></div>	Explore AS, differentiate
	<div><div>2. JOBS-TO-BE-DONE / PROBLEMS<div>J&P</div></div><div>Which jobs-to-be-done (or problems) do you address for your customers? There could be more than one; explore different sides.</div><div>Monitoring patients scan images Restricting the operations performed on images Maintaining sterility</div></div>	<div><div>9. PROBLEM ROOT CAUSE<div>RC</div></div><div>What is the real reason that this problem exists? What is the back story behind the need to do this job? i.e. customers have to do it because of the change in regulations.</div><div>Background noise Difficulty in maintaining sterility Inability to handle various images by manual key press</div></div>	<div><div>7. BEHAVIOUR<div>BE</div></div><div>What does your customer do to address the problem and get the job done? i.e. directly related: find the right solar panel installer, calculate usage and benefits; indirectly associated: customers spend free time on volunteering work (i.e. Greenpeace)</div><div>When the customer is not aware or unclear about the gestures provided as an input in an effective manner in order to get the desired accuracy</div></div>	
Focus on J&P, tap into BE, understand RC				Focus on J&P, tap into BE, understand RC
	<div><div>3. TRIGGERS<div>TR</div></div><div>What triggers customers to act? i.e. seeing their neighbour installing solar panels, reading about a more efficient solution in the news.</div><div>The need to switch between patient and device is not required Ease of equipment interaction during surgery</div></div>	<div><div>10. YOUR SOLUTION<div>SL</div></div><div>If you are working on an existing business, write down your current solution first, fill in the canvas, and check how much it fits reality. If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour.</div><div>To make use of hand gestures to manipulate radiology</div></div>	<div><div>8. CHANNELS of BEHAVIOUR<div>CH</div></div><div>ONLINE What kind of actions do customers take online? Extract online channels from #7 Perform various image manipulation operations on the scan during surgery and training periods OFFLINE</div></div>	

Identify strong TR & EM	<div><div><div>4. EMOTIONS: BEFORE / AFTER</div><div>How do customers feel when they face a problem or a job and afterwards? i.e. lost, insecure > confident, in control - use it in your communication strategy & design.</div><div>EM</div></div><div><div>Before: To move away from patients and towards the devices for manipulating the scans</div><div>After: Easy to focus and concentrate on the surgery without the need to switch between patients and device for manipulating the scans</div></div></div>	<div>images</div> <div>To maintain sterility during surgery</div> <div>To make simple UI that manipulates the scan using hand gestures</div>	<div>What kind of actions do customers take offline? Extract offline channels from #7and use them for customer development.</div> <div>Perform image manipulation techniques on already available scans in database to train the AI model</div>	Identify strong TR & EM
